# **SMN CYBERSECURITY SCHOLARSHIP PROGRAM**

"Where Dreams Meet Opportunity"

The Single Mom Network Cybersecurity Scholarship Program was developed to bridge the gap between disadvantaged & marginalized women who have shown interest in breaking into the tech industry but may not have the resources to successfully make the transition.

# About SMN

"Where Dreams Meet Opportunity"

The Single Mom Network is an organization developed to assist in connecting single moms to the resources they need to be successful in their business and careers while overcoming everyday life challenges as a single parent.

## Problem 1

The cybersecurity workforce has reached an all-time high, with an estimated 4.7 million professionals, but there's still a global shortage of 3.4 million workers in this field, according to the 2022 (ISC) Cybersecurity Workforce Study released Thursday (10/22/22).

Source:Fortune

## Problem 2

The global cybersecurity workforce is only 25% women, according to Cybersecurity Ventures.

## Problem 3

Disadvantaged & marginalized individuals rarely have the resources to gain training & receive the certifications to position themselves for a career in cybersecurity.

1

## Solution 1

Create access to resources for moms to receive the training, certification, & job placement once completed.

2

## Solution 2

Create a pipeline directly from the scholarship programs that will give more people access to the training and experience needed to flourish within a career in Cyber.

3

## Solution 3

Provide support and resources along with a database of companies looking to hire motivated women that will ultimately assist in closing the wage gap & accessibility to opportunities in the industry.

# About The Entry Level Course

Participants will understand the following cybersecurity domains: Security Principles; Business Continuity, Disaster Recovery, and Incident Response Concepts; Access Control Concepts; Network Security, and Security Operations. 4 Month Program.

Students will receive top notch Cyber security training, career services, practice lab which every student will have access to. The practical work students will carry out within the lab environment will suffice as experience and they can utilize on their resume.

Security Principles  
Incident Response
